

Report by Council Member Paul McEvers

Oki,

The last few months have sped by as though days, so this BTBC Council Report covers what inroads have been made **insofar as my contribution to better government.**

To reiterate, I campaigned on change in 2006, and since it takes 20 years for change to come about, **I moved for radical change** since none of us are getting any younger. Rather than hand present and future generations unnecessary trial and tribulations - our debt and history of dysfunction, I opted to get things moving, to do what was doable with then BTBC in place, together with incoming BTBC of 2008.
